CHAPTER ONE

Introduction

1.1. THE NAME: COVENANT UNIVERSITY (CU)

All over Africa, and Nigeria in particular, a great significance is attached to names. They portray meanings and convey important messages. Names reflect circumstances of birth or events. The word “Covenant” was chosen as an expression of the University's total commitment and vow to make a Total Man of her students. It reflects the intention of the proprietors of the University to uphold

a binding agreement with students to deliver their desires for excellence and career exploits by offering them the best in educational attainment and their parents/guardians the best value for their investment. It is also common knowledge that every covenant is ratified by blood and, as a church-sponsored University, we consider the blood of Jesus Christ, which is the blood of the everlasting covenant, as our stronghold in the fulfilment of this awesome obligation. Covenant University vows to make of her graduates, expert thinkers, leader-managers, and hyper-resourceful technocrats in all fields of human endeavour.

1.2. THE UNIVERSITY

On October 21, 2002, the African educational landscape was radically altered by the formal entry of Covenant University (CU) into the higher education context. The University is located at Canaanland, Ota, Ogun State, Nigeria. The University is a growing, dynamic, vision-birther and vision-driven University, founded on a Christian mission ethos and committed to pioneering excellence at the cutting edge of learning.

1.3. OUR MANDATE

The University's specific mandate can be stated as follows:

- Raising a new generation of leaders through a qualitative and life-applicable training system that focuses on value and skill development.

- Raising a new generation of leaders through a broad-based qualitative education built on sound biblical principles culminating in the birth of path-finders, pace-setters and trail-blazers.
- Raising a new generation of leaders who shall redeem the battered image of the black race and restore her lost glory as this trained army of reformers begins to build the old wastes, repair the waste cities and raise the desolation of many generations.

1.4. OUR VISION

To be a leading World-Class Christian Mission University, committed to raising a new generation of leaders in all fields of human endeavour.

1.5. OUR MISSION

To create knowledge and restore man's dignity through a Human Development concept of the Total Man, employing innovative, leading-edge teaching and learning methods. The application of research that promotes integrated, life-transforming values through Science, Technology and Human Capacity Building.

1.6. OUR FOUNDING PHILOSOPHY

In response to the global demand for a departure from dogmatism to dynamism in the existing educational system, Covenant University is built on the following philosophical platform:

- a departure from form to skill
- a departure from knowledge to empowerment
- a departure from figures to future-building
- a departure from legalism to realism
- a departure from mathematics to life-matics.

This is reflected in our motto: "Raising a New Generation of Leaders".

1.7. OUR OBJECTIVES

The objectives of the University are to:

1. Provide facilities for learning and give instructions and training in such areas of knowledge that will produce sound and mentally equipped graduates, who will provide intellectual leadership in academic institutions, industry and the public sector through the Total Man Concept approach;
2. Develop and offer academic and professional programmes leading to the award of diplomas, first degrees and higher degrees, which emphasize planning, adaptive and technological maintenance, developmental and productive skills;
3. Promote by research and other means, the advancement of knowledge and its practical
4. Application to social, cultural, economic, scientific and technological problems;

5. Encourage and promote scholarship and conduct research in all fields of learning and human endeavour;
6. disseminate scientific and technological knowledge among scientists, researchers, industries, trade services and other bodies; and
7. relate its activities to the technological, scientific and socio-economic needs of the people of Nigeria and to undertake other activities appropriate for a university of the highest standard.

1.8. OUR CORE VALUES

Our core values as a University are the defining components of the Covenant University vision and they reflect our beliefs in the encrypted truths that firmly define our purpose and the underlining ethos of our existence as a University.

As a University, we strongly uphold the practices embedded in our core values and strive to integrate these Values into all facets of our functions and operations. We expect that students of Covenant University will visibly demonstrate and integrate the virtues embedded in these core values in their daily conduct as students who are being raised along the vision lines of raising a new generation of leaders for the continent of Africa on the Total Man Concept-driven developmental platform. All students are expected to adhere strictly to the University's core values in their day-to-day activities within or outside the University.

The Covenant University core values are Spirituality, Possibility Mentality, Capacity Building, Integrity, Responsibility, Diligence and Sacrifice.

A. Spirituality

This forms the bedrock of our existence as a University and defines every aspect of our operations and context. The Christian ethos underlines our activities and conducts at all times and every student of Covenant University is expected to exhibit character traits and dispositions of a Jesus-centred heritage. The Jesus-factor centred approach to all issues is non-negotiable and central in the pursuit of our mandate in raising a new generation of leaders. To this extent, therefore, students are to be committed to maintaining a high level of spirituality and act in such a manner to facilitate their spiritual growth. Attendance at chapel services, which every student is expected to attend with a Bible, notebook and pen, is a compulsory and essential part of students' spiritual development. Students are also expected to demonstrate a deep reverence for God at all times.

B. Possibility Mentality

Students of Covenant University are expected to exhibit a royal carriage, attitude, habit and character, exuding self-confidence and dignity at all levels of interaction and in general conduct. They are expected to see themselves as persons of worth and value, taking pride in their uniqueness as individuals with a positive mindset devoid of any trace of inferiority.

C. Capacity Building

This is related to commitment to a lifestyle of continuous academic and personal development, striving to be continuously relevant to the overall vision requirement of the University as well as her core mission, goals and objectives. Students are encouraged to constantly seek paths for self-improvement. Openness to learning new skills and taking on board new information is a trait expected of Covenant University students in order to have robustness and depth in the quality of their output.

D. Integrity

Students of Covenant University are expected to demonstrate traits of honesty, uprightness and trustworthiness at all times. They must ensure that they are accountable, transparent and open in all their dealings. They shall flag truth as a virtue at all times, particularly in conduct during examinations, obeying the rules and regulations of the University, being spiritually sound, morally upright and having a good conscience.

E. Responsibility

We are committed to inculcating a sense of responsibility in our students. We believe in the place of discipline for effective leadership. We expect our students to respond to issues as demanded not as convenient. Here at Covenant University, our students are not permitted to do what they like but what is right. Punctuality at lectures, as well as prompt response to assignments as demanded, is a desired trait of responsibility.

F. Diligence

Students of Covenant University are expected to be deeply committed to their assignments. We expect that they will extol the virtues of hard work and constantly strive towards excellent attainment in all they do.

G. Sacrifice

Sacrifice is the ultimate price for outstanding leadership. It is the quality of sacrifice that defines great leadership. We, therefore, expect students of Covenant University to go the extra mile and pay the extra-price in the attainment of their set goals. Raising an altar of sacrifice in pursuit of their dreams is what must distinguish and define the Covenant University student.

1.9. THE TOTAL MAN CONCEPT

The Total Man Concept (TMC) is Covenant University's custom-built programme that constitutes the core concept of her academic programmes.

This concept centres on 'developing the man that will develop his world.' It is designed to make the student become intelligently conscious of his environment and thus be able to maximize his potential.

The programmes of the University are first directed at 'the person' before his profession. In this way, the University will raise a generation of experts who possess the capacity to face and manage challenges.

The TMC Programme centres on three components of the human personality: the spirit, the mind, and the body.

A. The Spiritual Man

Spiritual development is to us a major force for the evolvment of the Total Man, as mental excellence and understanding are generated through the vital force in man, which is the Spirit of God and the Spirit of intelligence.

As a University sponsored by a Christian mission, character formation is considered a spiritual issue that is instilled by self-discipline and commitment to the principles enunciated by our Lord Jesus Christ.

Covenant University provides opportunities for spiritual development through various avenues, including spiritual formation programmes and counselling, and also by creating leadership opportunities.

B. The Intellectual Man

Covenant University students enjoy the highest standards of excellence through the institution of academic programmes that are innovative, creative and functional.

Covenant University also encourages students to be inquisitive, bold and forthright in asking questions and facing the challenges of academic leadership.

The Total Man concept is also promoted through the introduction of a system of compulsory, theoretical and practical courses, all of which must be passed before one can be considered for a degree

from the University. In addition to normal General Studies courses, we have included our own specially-designed courses in areas such as biographical studies, entrepreneurship, family life, human development process, leadership development, mental development, success concepts, work ethics and Towards the Total Graduate (TTG) Programme.

C. The Physical Man

The body is a vital component of the Total Man. Covenant University is committed to providing avenues for sound physical development via recreational activities that engage the body and also enhance personality development, stimulating the cultivation of lifestyles that are conducive to healthy living. We thus encourage students to participate in sporting activities.

1.10. THE TOTAL GRADUATE

The Covenant University graduate will be mentally resourceful, intellectually reinforced, enterprisingly self-dependent, futuristically visionary and responsibility-sensitive to the changes demanded the leadership role or dominion nature he is made for. He shall be a Total Man.

CHAPTER SEVEN

Regulations On Students' Conduct

A high standard of personal discipline and integrity is expected of every student. Covenant University regards all acts of unethical, immoral, dishonest or destructive behaviour as well as violations of University regulations, as serious offences. It is the responsibility of each student to know these regulations.

7.1. UNIVERSITY'S MANDATORY ATTENDANCE POLICY

Covenant University has an accountability system in place to ensure that her students are accounted for at all times. This system was designed to enable the effective discharge of our in loco parentis obligations, and the University's attendance policies are sacrosanct for accountability sake.

These policies are all intertwined as default in one affects the other, and they cover attendance of the following:

- a. Lectures
- b. University General assemblies, which includes chapel services and other mandatory prayer meetings, welcome assembly, departure assembly, public and inaugural lectures, Founder's Day events etc.

c. Daily roll call at the halls of residence

Consequently, defaults in any of these events jeopardize the University's ability to fulfil her leadership development objectives and therefore attracts punitive implications to the defaulters.

The University has invested in biometrics and other identity capturing mechanisms to ensure the authenticity and effectiveness of attendance data capturing and processing, and all students have been educated on the enrollment protocols and operational modalities.

Among other consequences, severe violations of the mandatory attendance policies will impair a student's eligibility for examinations at the end of the semester.

However, provisions have been made to cater for condonable circumstances in which it is impossible to comply with the attendance policies. Students should familiarize themselves with the guidelines for seeking excuse permits for the approved condonable reasons.

The University Management will communicate the compliance updates of students to their parents and guardian on a weekly basis through emails and SMS, via registered parental email addresses and phone numbers.
